

## New Enhancements to Our Digital Banking System - Retail

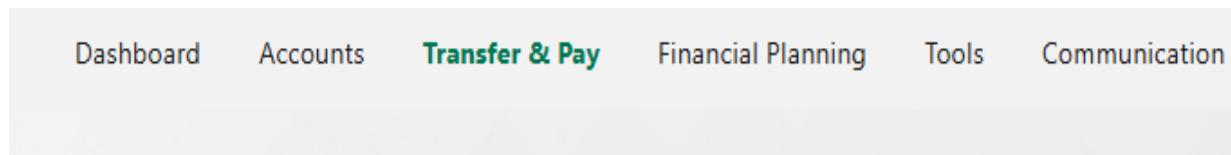

### Money Movement Landing Page - Retail Mobile App

The new Money Movement Landing Page offers centralized access to bill payments, account transfers, mobile deposits, and making a payment to loan, , providing fewer steps and faster navigation from the primary toolbar.

## **Multi Transfer – Retail**

The Multi Transfer feature enables users to save recurring sets of transfers, update only the amounts each time, and submit all transfers at once, reducing repetitive entry and improving accuracy. With Multi transfer, customers can transfer from one account to many accounts and from many accounts to one account.

## **Account Search – Retail**

A new account search bar is now available in both the Dashboard Accounts widget and the Accounts page. This enhanced feature allows users to filter accounts by nickname, account type, or masked account number. Advanced search filters also allow refinement by preferred balance and account type class.

The screenshot shows the Trinity Bank mobile application interface. At the top, there is a navigation bar with tabs: Dashboard, Accounts, Transfer & Pay, Financial Planning, Tools, and Communications. The 'Dashboard' tab is currently selected. Below the navigation bar, the word 'Dashboard' is displayed in a large, bold, dark font. Underneath it, the word 'Accounts' is shown in a smaller, dark font. To the right of 'Accounts', there is a search bar with a magnifying glass icon and the placeholder text 'Search Accounts'. A large green arrow points downwards from the top of the image towards the search bar. Below the search bar, there is a section titled 'Checking (5)' which lists five checking accounts. Each account entry includes the account number (prefixed with a black dot), the account name, and the available balance in bold text. The accounts listed are: Checking-0722 \*\*\*0722 (\$1,770.41 Available), Checking-7876 \*\*\*7876 (\$9,796.15 Available), Checking-1250 \*\*\*1250 (\$376.59 Available), and two other accounts whose details are partially visible. The background of the app is white, and the overall design is clean and modern.
